COMPUTERIZED DENTISTRY

14 YEARS CERTIFIED TRAINERS COURSE

Dear colleagues,

14 years ago the first ISCD Certified CEREC Trainers Course took place in Berlin, Germany. During this course CEREC trainers from the United States, Canada, Australia, Sweden, United Kingdom and Germany gathered for the first of many more "Train the Trainer" Courses.

Objective has always been to get updated not just in the CEREC method but also in ways to train fellow dentist most effectively in the proper use of the system, including updates in software, hardware as well as in Adhesive Dentistry. More than 350 dentists have been certified in the meantime, many of them returning for re-certification every other year.

International renowned speakers from many different countries as well as members of the R&D Department of Sirona Dental Systems make sure that you will be on the edge of tomorrow's knowledge.

COMPLETE NEW SW 4.0 PROGRAM

Due to the major SW 4.0 upgrade the complete course program has been revised. It was successfully implemented during the course in Vancouver in 2011. The emphasis is more on didactics and your personal input. Next year's 13th ISCD Certified CEREC Trainers Course is taking place in Istanbul, March 30-31, 2012.

DENTISTS ONLY & GUESTS

Because of the nature of the course only practicing dentists can participate in the ISCD Certified CEREC Trainers Course and become an ISCD Certified Trainer or renew their certification. CEREC Sales Representatives can also participate in the Course as guests (without being able to become certified).

Before you fill out the application form please consider that you need to have a broad understanding of the CEREC method. If you are a beginner to the system and have less than a year's experience with the system you will be asked to participate in a Preliminary Course prior to taking the ISCD CEREC Trainers Course.

COMPUTERIZED DENTISTRY

1 DAY UPDATE COURSE AVAILABLE

Participants who have attended the 11th ITC (Paris 2010) and/or the 12th ITC (Vancouver 2011) may attend the update course (1 day Saturday) only. All others have to register for the complete two-day program.

CASE PRESENTATION AND OTHER REQUIREMENTS

Your application will be reviewed by the educational committee of the ISCD within 10 days of your submission upon which you will be invited to join us for the next ISCD CEREC Trainers Course.

You need to include/attach a case presentation of a CEREC case that was treated by yourself and submit the case together with the corresponding .cdt or .rst file either via e-mail or by sending a CD.

If you are a practicing dentist and have already successfully participated in an earlier ISCD Certified CEREC Trainers Course (or in the 10th or 11th ITC) you will be admitted without further reviewing. Participation in the course and passing a final written exam (with more than 60% correct answers) at the end of the course will grant you an "ISCD Certified CEREC Trainer" status for the next two years.

LET'S MEET IN ISTANBUL. GET ISCD CERTIFIED!

Following the CEREC Trainers Course the ISCD offers an **Meisterklasse - Advanced Course** designed preferably for all ISCD Certified Trainers who want to explore all the possibilities of the CEREC system and especially get to know all the in's and out's of the newest CEREC SW 4.0.
This Advanced Course covers all practical aspects of CEREC that go beyond the Basic Course. This includes optimizing your workflow and doing chairside bridges with your CEREC. We will give you valuable tips and tricks for dental office. Do not miss this Intensive Course designed for Certified Trainers.

Kind regards,

Klaus Wiedhahn
President ISCD

BOOK EARLY – SPECIAL PRICED ROOM BLOCK

There will be a special priced room block soon. At the moment we are in negotiation with different hotels in Istanbul. As soon as the venue is confirmed you will be informed by e-mail.
