## 13 YEARS CERTIFIED TRAINER COURSE

**Dear colleagues,**

**13** years ago the first ISCD Certified CEREC Trainer Course took place in Berlin, Germany. During this course CEREC trainers from the United States, Canada, Australia, Sweden, United Kingdom and Germany gathered for the first of many more "Train the Trainer" Courses.

Objective has always been to get updated not just in the CEREC method but also in ways to train fellow dentist most effectively in the proper use of the system, including updates in software, hardware as well as in Adhesive Dentistry. More than 300 dentists have been certified in the meantime, many of them returning for re-certification every other year.

International renowned speakers from many different countries as well as members of the R&D Department of Sirona Dental Systems make sure that you will be on the edge of tomorrow's knowledge.

### COMPLETE NEW PROGRAM

Due to major upgrades the complete course program has been revised. It was successfully implemented during last year's course in Maui. The emphasis is more on didactics and your personal input. Next year's 11th ISCD Certified CEREC Trainer Course is taking place in Paris, March 18-19, 2010.

### DENTISTS ONLY & GUESTS

Due to the nature of the Course only practicing dentists can participate in the ISCD Certified CEREC Trainer Course and become an ISCD Certified Trainer or renew their certification. CEREC Sales Representatives can also participate in the Course as guests (without being able to become certified).

Before you fill out the application form please consider that you need to have a broad understanding of the CEREC method. If you are a beginner to the system and have less than a year's experience with the system you will be asked to participate in a Preliminary Course prior to taking the ISCD CEREC Trainer Course.

## 1 DAY UPDATE COURSE AVAILABLE

Participants who have attended the 9th ITC (Cancun 2008) and/or the 10th ITC (Maui 2009) may attend the update course (1 day – Monday) only. All others have to register for the complete two-day program.

## CASE PRESENTATION AND OTHER REQUIREMENTS

Your application will be reviewed by the educational committee of the ISCD within 10 days of your submission upon which you will be invited to join us for the next ISCD CEREC Trainer Course.

You need to include/attach a case presentation of a CEREC case that was treated by yourself and submit the case together with the corresponding .cdt file either via e-mail or by sending a CD.

If you are a practicing dentist and have already successfully participated in an earlier ISCD Certified CEREC Trainer Course (or: in the 8th or 9th ITC) you will be admitted without further reviewing. Participation in the course and passing a final written exam (with more than 60% correct answers) at the end of the course will grant you an "ISCD Certified CEREC Trainer" status for the next two years.

## LET'S MEET IN PARIS. GET ISCD CERTIFIED!

Following this year's CEREC Trainer Course the ISCD offers an Advanced Course designed preferably for all ISCD Certified Trainers who want to explore all the possibilities of the CEREC system. This Advanced Course covers all practical aspects of CEREC that go beyond the Basic Course. This includes optimizing your workflow and doing chairside bridges with your CEREC. We will give you valuable tips and tricks for dental office. Do not miss this Intensive Course designed for Certified Trainers.

Kind regards,

**Klaus Wiedhahn**  
President ISCD

## BOOK EARLY – SAVE WITH SPECIAL PRICED ROOM BLOCK

There is a reserved room block for ITC participants at Magic Circus Hotel, Paris. The room rate is 120 Euro (single room) and 129 Euro (double room) per night including breakfast. For reservation please send back the hotelreservation form by fax to +49 30 76764386.
